

Paddle UK Canoe Slalom & Kayak Cross International Panel Statement

Second pre-season Update - 17th March 2025

2025 Senior, U23 & Junior Selection Policies:

The 2025 GBR Canoe Slalom & Kayak Cross selection updated version of the policy can be found [here](#).

There has been some question over the application of the rules in Kayak Cross referenced in Appendix F of the policy. The IP understands the need to be aware of adding additional costs but equally must ensure the safety of all competitors. Kayak Cross equipment rules for selection will be run in the same way that they were in 2024 selection. The ICF rules state that:

- *The paddle is not permitted to have any sharp edges on the paddle blade. Sharp edges must be covered (e.g. guard, tape, silicon).*
- *The paddle edges must have a minimum thickness of 5mm (radius of 2.5mm) measured, along the whole length of blade edge, with the specific ICF gauge. The paddle edge could be made by the original manufacture of the paddle or with an edging guard added.*
- *Metal tipped paddle blades are not permitted.*

Paddlers should be aware that spot checks may occur throughout the competition and paddlers not maintaining the compliance with the rule would be disqualified for breaching the rules for the specific round.

International Panel - Email Address

The International Panel is now aware that the enquiries.internationalpanel@paddleuk.org.uk contact email has not been working. We apologise for this and confirm that the technical issue has been resolved.
